DSS Product Requirements Document

Conversion-first website + AI LMS

DIGITAL SALES SCHOOL · PRODUCTION SPECIFICATION

1. PRODUCT VISION

DSS is a competency-based career school training people to sell AI, SaaS, software, apps, cybersecurity and other technology solutions for employers in Nigeria and abroad.

filecite turn948file1 L1-L6

The website sells the opportunity. The LMS delivers the programme. Assessment and portfolio evidence prove competence.

2. TARGET AUDIENCE

Young professionals	A defined digital career skill and credential.
Graduates	Practical evidence beyond a transcript.
Career switchers	A non-coding route into technology.
Existing salespeople	Technology-specific sales capability.
Founders/business owners	A repeatable way to commercialise technology.
Freelancers/service providers	A structured client-acquisition skill.
Tech directors/sales teams	Measurable sales capability development.

3. PRODUCT OUTCOMES

- Visitor → lead → applicant → paid student.
- Paid student → active learner.
- Learner → module mastery.
- Learner → portfolio evidence.
- Learner → Sales Readiness Index.
- Learner → certification/deployment readiness.

4. PROGRAMME

The curriculum contains seven parts and 28 modules across a 13-week core programme, with Parts 3 and 4 specialising around Setter/Closer tracks after a Week 6 checkpoint. filecite turn950file0 L1-L12
